Waste Harmonics Acquires Assets of SetWest Leasing And Rental Corp.

Victor, N.Y. —April 19, 2017: Waste Harmonics, LLC, a leading provider of outsourced waste management services based in Victor, N.Y., has acquired the assets of SetWest Leasing and Rental Corp. (SetWest), a provider of waste management rental equipment in Buffalo, N.Y. SetWest serves a variety of private and public companies in the eastern United States.

“SetWest has been providing superior recycling and solid waste management services for nearly 30 years,” said Michael Hess, Waste Harmonics’ President and CEO. “It is a logical, synergistic acquisition that strengthens and expands our current equipment portfolio. We’re looking forward to integrating these assets into our iWaste remote monitoring program.”

Waste Harmonics offers a single-source integrated waste management solution for North American companies with multiple locations spread across a wide geographic territory. Its customized programs cost-effectively consolidate all components of companies’ waste management needs, including pick-up, hauling, recycling, and sustainability. Waste Harmonics also provides rental waste equipment, like containers and compactors, equipment installation and repair services, and temporary containers for construction waste.

Waste Harmonics was recently recognized by the *Rochester Business Journal* as the second fastest-growing privately-held business in 2016 in the Rochester, N.Y., area in the publication’s annual Rochester Top 100 ranking.

About Waste Harmonics

Waste Harmonics helps companies with multiple locations spread out across a wide geographic territory manage waste more efficiently and cost-effectively. Waste Harmonics’ customized waste management services address critical needs such as waste pick-up, hauling, recycling, and sustainability. Waste Harmonics serves North American businesses of all sizes in retail, banking, logistics, property management, grocery, utility, restaurant, and furniture industries, among others.
